

## **BRIEF HISTORY OF THE COMPANY**

**The Company was originally incorporated as Private Limited Company in the name & style of “A.K. Processors Private Limited” on October 6, 1994 having object of Processing of man made fabrics. Later to expand the area of operation and to fulfil its Capital requirement the Company was converted as Public Limited Company on January 6, 1995. In eighties there were lots of opportunities in textile sector. The Government focused on textile development. To avail this opportunity the Company decided to start fabric processing business and the name of the Company was changed to “A.K. Spintex Limited” on February 24, 1995. After that on 25-04-2025 name of company is change to “SUNRAKSHAKK INDUSTRIES INDIA LIMITED”**

## **Experienced Management and Employees**

**The Company has a team of experienced management and employees who possess significant experience in the fabric processing in textile sector. Our management and professional personnel have extensive experience in anticipating market trends, identifying new markets and potential sites for development. Their experience includes relationships with the customers and suppliers from whom we source raw materials and the contractors we engage for job processing services, allowing us to better manage the quality, schedule and cost of the materials and production in our premises. We believe that this experience and expertise will enable us to replicate our business model in other geographic areas of India.**

## **Our standardized and documented internal processes.**

**Under the guidance of our Management, we have documented our internal processes and methodologies which ensure that each department and each employee of our Company are aware of their respective roles and obligations, and each activity of fabric processing and development is as per the standards of quality that we have set for ourselves. This also ensures uniformity in all our processes.**

## **Established Reputation for Quality Projects and Construction**

**We have successfully completed several years in this market. We have never experienced any significant quality issues nor have we ever been cited for any quality deficiencies in fabric processing. We believe customers identify our products with quality and, as a result, we enjoy customer confidence, enhancing our ability to sell our products.**

## **Our Vision**

To emerge as an enterprising conglomerate through unmatched quality in products, perfection in service and enduring impression, through incessant advancement in safety, health and environmental aspects which is our competitive edge.

To become an Organisation of sustainable growth with strong fundamentals by creating value and making a difference to all our stakeholders in building highly successful businesses based on a customer centric approach and to contribute to the sustainable growth of the society, a value that drives us to scale new heights.

## **Our Mission**

We strive for long term relationship of mutual trust and interdependence with our customers, motivated employees and suppliers in creating a better tomorrow than today.
